Carl Trimble
Connecting Point, Inc.
450 NW 65th Terrace #105
Margate Florida 33063

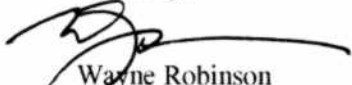

I have been doing business with Connecting Point and specifically Carl Trimble for over 20 years and it is an extreme pleasure and without reservation that this letter of recommendation is written for an individual and company that I hold in the highest regard.

With their guidance and direction in both computerization, hardware and telephony our company has grown and prospered far beyond what would have been realized and this is a direct result of there expertise.

I have always found they are motivated and execute their profession with the highest degree of integrity using sound judgment and their level of competence has been a tremendous aide with our business.

It is my opinion that any company seeking professional help in their area of expertise look no further and take advantage of what they have to offer.

Sincerely,

Wayne Robinson
Executive Vice President
