Our profession is fast paced with constantly changing demands. We must be willing and prepared to either adapt quickly or loose business.

Six years ago we began using Connecting Point for our network wiring and telephony needs. There dedication and fast response have been invaluable to our growth and productivity. Weather a complete office rewire, new phone equipment or a simple staff relocation they manage to get work done quickly while avoiding interruptions to our daily operations.

Last year when hurricane Wilma rolled over South Florida we, like many others, were left without telephones or power. Working with our staff, in disaster conditions, Connecting Point helped to quickly relocate computers and phones to our Port Saint Lucie facility which allowed us to continue operations until vital service were restored in Boca Raton.

Today, with Tropical Storm Ernesto bearing down on us, they are here again getting us set up with emergency phones that will work in spite of power failure.

Great partnerships help create great businesses. The partners of QJMWAV are proud to be associated with Connecting Point and there staff.

Thank You,

A handwritten signature in black ink, appearing to read "Robert Vaughn", with a stylized flourish at the end.
